Summary

I am a **Full-Stack Web Developer** passionate about building clean, high-performance web applications from the ground up. With a strong foundation in **ReactJS** and **Node.js**, I bridge the gap between intuitive frontend design and scalable backend architecture. Beyond coding, I specialize in the **WordPress** ecosystem and **SEO optimization**, ensuring every project is not only functional and responsive but also built to drive real-world results and user engagement.

Highlighted Projects

Arty · WordPress Developer – Internship in SignPrint | 2026

- I developed **Arty**, a premium Moroccan e-commerce platform for contemporary wall art. Built using **WordPress** and **WPBakery**, I integrated **WooCommerce** for a seamless shopping experience and implemented **Rank Math SEO** to drive organic traffic and market visibility.
